Lakeshore campus continues to collect soda can tabs for the Ronald McDonald House. Please deposit tabs in the designated box in the lobby. Thanks to Marilyn DeGrasse for being our community liaison.

Remember to recycle cans, plastic, and paper. There are bins on each campus for your convenience.

Think Green....

As we get into holiday seasonal décor, remember that beeswax candles are the safest bet for the environment. Regular paraffin candles are a product of petroleum refining which is not the best for "green living".

Laugh Lines....

Lies We Have Told Our Kids:

Our parents used to tell my brother and me that we had another brother who turned into a mushroom from not taking a bath. Even added him to the family album.

We got our daughter to eat fish by calling it Argentinian chicken.

If the ice cream truck is playing music, it means it has run out of ice cream.

When I was little, my dad told me that toys grew under the weeds in the yard and that if I pulled them, eventually a toy would pop out. And I believed it!

My dad said that if I looked after a special growing rock and watered it each day until it stopped growing, I could get a pet dog. I'd water it, and every week he would replace it with a slightly bigger rock.
