Class of the Week: Enjoying Short Fiction (Gene Barnes – Instructor)

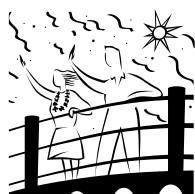

People who enjoy quality reading have been gathering on Wednesdays at 11 a.m. Gene Barnes, instructor, said when participants share their insights, it doubles the fun and improves understanding of the material. Patty Greenfield, a class member for 3 semesters, said she particularly enjoys the pace of the class which requires a weekly reading of a story by a great author. "This gives us the opportunity to explore in some detail fine works by writers like Hemingway, Chekhov, Tolstoy, Baldwin, Cather, Thurber, and Shirley Jackson", said Greenfield. "I love this class because discussions lead to a greater appreciation of these renowned authors." Anthologies containing all the stories are provided on loan at no cost to students.

Eat Your Scraps
 The papery skins of onions contain more antioxidants than the onion itself. It's especially rich in quercetin, which may reduce blood pressure and prevent arterial plaque.
How to eat them: Simmer in stocks, soups and stews for additional flavor; discard the skins before serving.

Wrong Answer!
 Marvin Borgmeyer says, "With Valentine's Day just passed, I am reminded of the man who was asked what his wife's favorite flower was. "With his wife standing at his side, he answered, 'Gold Medal, All Purpose', and he hasn't been the same since!"
