FALL SURVEY RESULTS

We are pleased to share the results of our 2011 Fall Satisfaction Survey with you, highlighting the achievements you noted, as well the areas you feel do not measure up to the high standard we hold for ourselves. (*Copies of the full report will be available in booklet form at each campus.*) We are most proud that our highest marks **from you** come from responses which estimate our commitment to our mission and to creating a community of caring individuals. We are also grateful that so many of you took the opportunity to let us know what you liked best about People Program and how we might better serve you. One of the areas that respondents noted falls short of other achievements, were our efforts to help you create and maintain friendships. While there was a lot of variety in the response to this question at different campuses, we think we can do a better job. To that end, be on the lookout for more social activities later in the Spring, and during the summer and fall sessions. With your feedback and ongoing suggestions for

improvement, we can continue to grow and provide you with opportunities that will help meet your needs.

MORE SURVEYS!!

Please help your teachers improve the quality of their course offerings by taking the time to complete evaluations this week. Let them know what you love! What would you change? We want to invite positive feedback and suggestions for mid course corrections so that our curriculum will continue to improve.

Teachers: please allow 5 minutes during each of your courses this week for students to complete the anonymous surveys. We will share the results with you at a convenient time.

I went to the store the other day. I was only there for about five minutes, but when I came out, a cop was writing a parking ticket. So I walked up to him and asked, "Come on, buddy, how about giving a guy a break?" He ignored me and continued writing the ticket. So I called him a pencil-necked geek. He glared at me, and started writing another ticket for bald tires. So I called him horse-faced. He calmly finished the second ticket, placed it next to the first, and began writing a third. This went on for about 20 minutes. The more I abused him, the more tickets he wrote. But I didn't care. My car was parked around the corner.

A computer once beat me in chess, but it was no match for me in kickboxing.
