Eat Your Scraps....

Celery top leaves are brimming with five times more magnesium and calcium than the stalks. They're also a rich source of vitamin C and phenolics, potent antioxidants, and anti-inflammatory compounds.

IT'S THE BEST MEDICINE...

A MAN WALKS INTO his boss's office and says, "Sir, I know the economy isn't great, but I have three companies after me, and I'd like to respectfully ask for a raise."

After a few minutes of haggling, the boss agreed to a 5 percent raise, and the man got up to leave. "By the way," the boss asked, "which three companies are after you?" "The electric company, the water company, and the phone company."

A WOMAN accompanied her husband to the doctor for his annual physical. While her husband dressed, the doctor went out to the waiting room to chat with her.

"I don't like the way your husband looks," he said softly.

"Neither do I," she replied. "But he's handy to have around the house."

A MAN known as the "Human Cannonball" told the circus owner that he was too old to be shot across the arenas and decided to retire.

"You can't!" the owner cried. "Where am I going to find a man of your caliber?"
