Laugh Lines...

Bathtub Test:

During a visit to my doctor, I asked him, "How do you determine whether or not an older person should be put in a nursing home?"
 "Well," he said, "we fill up a bathtub, then offer a teaspoon, a teacup and a bucket to the person to empty the bathtub."
 "Oh, I understand," I said. "A normal person would use the bucket because it is bigger than the spoon or teacup."
 "No," he said. "A normal person would pull the plug. Do you want a bed near the window?"

Psychiatrist to his nurse. "Just say we're very busy. Don't keep saying 'It's a madhouse.'"

A man went to his psychiatrist and said, "Every time I drink coffee, I get a stabbing pain in my eye."
 The psychiatrist said, "Well have you tried taking the spoon out?"

A psychologist returned from a conference in Aspen where all the psychologists were permitted to ski for free. Her husband asked how it went. She replied, "Fine, but I've never seen so many Freudian slips."
